Ranunculus Butterfly™

Ranunculus Butterfly™ is an exclusive cut flower series distinguished by its airy, delicate flowers and elegant appearance. This particular Ranunculus is known for its high-quality breeding and is specially developed for a long vase life. This makes the Butterfly™ perfect for floral arrangements, bouquets and creative arrangements. The graceful flower shape and unique colors create a soft, charming look in any floral arrangement.

[VIEW THE ASSORTMENT →](#)

Long vase life

Ranunculus Butterfly™ is known for its excellent vase life, remaining beautiful in the vase for up to two weeks. Its sturdy stems and carefully selected flowers maintain their shape, color and freshness. This makes the Butterfly™ a reliable choice for florists working with quality flowers that retain their ornamental value for a long time.

Flowers per stem

A key feature of Ranunculus Butterfly™ is its rich blooms. Each stem produces an average of 5 to 8 flowers, providing instant volume and a full appearance in any bouquet or floral arrangement.

Vase life 2 weeks. Stem length 32 inches.

This makes the Butterfly™ very efficient in use and ideal for creating generous, professional floral arrangements.

Sustainable cultivation

Ranunculus Butterfly™ is grown sustainably in a cold greenhouse, where optimal growing conditions are created at night temperatures below 10°C and short day lengths. The lack of additional heating keeps energy consumption low and reduces CO₂ emissions.

This controlled growing environment provides Ranunculus with ideal conditions for healthy, strong and uniform growth. In addition, the production is MPS-A+ certified, which stands for environmentally conscious and responsible cultivation of high-quality cut flowers.

RANUNCULUS ROMANCE™

Ranunculus Romance™ is an impressive large-flowered cut flower. This variety is known for its long, sturdy stems and full, layered flowers, making it perfect for bouquets and professional floral arrangements. Thanks to its strong quality and elegant appearance, Romance™ is a popular choice within modern floriculture.

Flower size and stems

Ranunculus Romance™ is not only elegant, but also exceptionally strong. The flowers remain beautiful in the vase for a long time, allowing you to enjoy their full, layered blooms for an extra long time. The series is available in a wide range of colors, ranging from soft pastel shades to deep, warm colors. As a result, there is always a suitable variant for any season, concept or style in floral arrangements.

The Romance™ thus combines color, strength and sophistication in one flower.

Vase life and colors

Ranunculus Romance™ is not only elegant, but also surprisingly strong. The flowers last a long time in the vase, allowing you to enjoy their full, layered petals for an extra long time.

The Romance line is available in a wide range of colors, from soft pastels to deep, warm nuances. Whether you choose subtle or striking, there is always a color that perfectly suits the season or mood of your floral arrangement.

Thus, Ranunculus Romance™ brings color, strength and sophistication together in one flower.

RANUNCULUS ROMANCE™

Sustainable cultivation

Ranunculus Romance™ is grown sustainably in a cold greenhouse, where optimal growing conditions are created at night temperatures below 10°C and short day lengths. The lack of additional heating keeps energy consumption low and reduces CO₂ emissions. This controlled cultivation ensures strong, healthy plants of high quality. In addition, Ranunculus Romance™ is MPS-A+ certified, which stands for responsible and sustainable cultivation.

RANUNCULUS 'BRUSHMARK' IS A PREMIUM, NOVELTY LINE OF JAPANESE RANUNCULUS . HIGHLY PRIZED BY FLORISTS AND FLOWER FARMERS FOR THEIR DISTINCTIVE "HAND-PAINTED" LOOK.

UNLIKE TIGHTLY PACKED TRADITIONAL RANUNCULUS, THE BRUSHMARK SERIES FEATURES LARGE, DOUBLE BLOOMS THAT ARE MORE OPEN, LOOSE, AND RUFFLED WITH GORGEOUS BICOLORED GRADIENTS AND STREAKS.

THEY PRODUCE MULTIPLE EXCEPTIONALLY TALL, STRONG STEMS WITH FEWER LEAVES, MAKING THEM HIGHLY EFFICIENT TO HARVEST AND PERFECT FOR HIGH-END FLORAL ARRANGEMENTS
